Portfolio: albadwimajid.github.io/my-portfolio-

Profile

A highly motivated and curious student developer with a strong interest in frontend development and data analysis. Skilled in building clean, responsive UIs using HTML, CSS, JS, and React. Recently expanded into Python and data analysis using Pandas, Matplotlib, and Power BI.

Skills

Frontend Development:

HTML, CSS, JavaScript, TypeScript, React, Material UI, Git

Data Analysis:

Python, Pandas, Jupyter Notebook, Seaborn, Matplotlib, Power BI

Tools:

VS Code, GitHub, Figma, Firebase, Render, Linux

Projects

Barbershop Legend (Django)

An elegant web app for booking and managing barbershop services. Includes multilingual support, admin dashboard, and mobile-friendly UI.

Airbnb Data Analysis

Exploratory Data Analysis using Python, Pandas, and Seaborn on Airbnb listings data. Focused on price trends and review insights.

NFT Figma UI Design

A modern Figma-based UI mockup for an NFT Marketplace. Includes clean landing, browse, and profile pages.

Education

Bachelor's in Systems Engineering (3rd Year)
